2. Tables

a. Fact Tables

i. rental

rental

| PK | Columns | Data Type | Description | FK |
|---|---|--------------|--|---|
|  | rental_id | SERIAL | Unique rental ID number automatically generated for each rental. Primary Key. | |
| | rental_date | TIMESTAMP(6) | Rental date and time in six-digit format without timezone | |
| | inventory_id | INTEGER | Unique ID number for each inventory ID number. Foreign key for inventory table. |  |
| | customer_id | SMALLINT | Unique ID number assigned to each customer. Foreign key for customer table. |  |
| | return_date | TIMESTAMP(6) | Date and time of rental without timezone in six-digit format | |
| | staff_id | SMALLINT | Unique ID number assigned to each staff member on the rental transaction. Foreign key for staff table. |  |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | linked relationship with inventory, customer, and staff tables. | | | |

b. Dimension Tables

i. payment

payment

| PK | Columns | Data Type | Description | FK |
|---|--|--------------|--|---|
|  | payment_id | SERIAL | Unique ID number automatically generated for each transaction payment. Primary Key | |
| | customer_id | SMALLINT | Unique ID number assigned to each customer. Foreign key for customer table. |  |
| | staff_id | SMALLINT | Unique ID number assigned to each staff member on the rental transaction. Foreign key for staff table. |  |
| | rental_id | INTEGER | Unique rental ID number automatically generated for each rental. Foreign Key for the rental table. |  |
| | amount | NUMERIC(5,2) | Rental amount value in \$USD to two decimal points (0000.00 format). | |
| | payment_date | TIMESTAMP(6) | date and time pf payment without timezon | |
| | linked relationship with rental, customer, and staff tables. | | | |

ii. inventory

inventory

| PK | Columns | Data Type | Description | FK |
|---|--------------|-----------|---|---|
|  | inventory_id | SERIAL | Unique ID number for each inventory ID number. Primary Key. Foreign key for the rental table. |  |
| | film_id | SMALLINT | Unique ID number for each film. Foreign Key for the film table |  |

| | | | | |
|--|--|--------------|--|---|
| | store_id | SMALLINT | Unique ID assigned to each store. Foreign Key for the store table. |  |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | linked relationship with rental, film, and store tables. | | | |

iii. customer

customer

| PK | Columns | Data Type | Description | FK |
|---|---|-----------------------|---|--|
|  | customer_id | SERIAL | Unique ID number assigned to each customer automatically. Primary Key. Foreign key for the payment and rental tables. |  |
| | store_id | SMALLINT | Unique ID assigned to each store. Foreign Key for the store and staff tables. |  |
| | first_name | CHARACTER VARYING(45) | Customer's first name. Up to 45 characters in length. | |
| | last_name | CHARACTER VARYING(45) | Customer's second name. Up to 45 characters in length. | |
| | email | CHARACTER VARYING(50) | Customer's email address. Up to 50 characters in length. | |
| | address_id | SMALLINT | Unique ID assigned to each customer. Foreign Key for the address table. |  |
| | activebool | BOOLEAN | Record of whether a customer is active using True/ False. | |
| | create_update | DATE | Date and time a customer account is added | |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | active | INTEGER | Record of whether customer is active using 0 or 1 binary integers. | |
| | linked relationship with rental and store tables. | | | |

iv. film

film

| PK | Columns | Data Type | Description | FK |
|---|------------------|------------------------|--|---|
|  | film_id | SERIAL | Unique ID number automatically generated for each film as a Surrogate Key. Primary Key. Foreign Key for inventory, film category, and film actor tables. |  |
| | title | CHARACTER VARYING(255) | Title of film. Up to 255 characters in length. | |
| | description | TEXT | A description of the film using unlimited text. | |
| | release_year | year | The release year of film. | |
| | language_id | SMALLINT | An ID assigned to each language and matched to each film in that language. Foreign Key for the language table. |  |

linked relationship with inventory, film category, film actor, and language tables.

v. film category

film category

| PK | Columns | Data Type | Description | FK |
|---|-------------|--------------|--|---|
|  | film_id | SMALLINT | Unique ID number automatically generated for each film. Primary Key. Foreign Key for film, inventory, and film actor tables. |  |
| | category_id | SMALLINT | Unique ID number assigned to each film category. Foreign Key for the category table. |  |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| linked relationship with inventory, film category, film actor, and category tables. | | | | |

vi. film actor

film actor

| PK | Columns | Data Type | Description | FK |
|---|-------------|--------------|---|---|
|  | actor_id | SMALLINT | Unique ID number assigned to each actor. Primary Key. Foreign Key for actor table |  |
|  | film_id | SMALLINT | Unique ID number automatically generated for each film. Primary Key. Foreign Key for film, inventory, and film category tables. |  |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| linked relationship with inventory, film, film category, and actor tables. | | | | |

vii. actor

actor

| PK | Columns | Data Type | Description | FK |
|---|--|-----------------------|---|---|
|  | actor_id | SERIAL | Unique ID number automatically generated for each actor as a Surrogate Key. Primary Key. Foreign Key for film actor table |  |
| | first_name | CHARACTER VARYING(45) | The actor's first name using up to 45 characters | |
| | last_name | CHARACTER VARYING(45) | The actor's last name using up to 45 characters. | |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | linked relationship with the film actor table. | | | |

viii. category

category

| PK | Columns | Data Type | Description | FK |
|--|---|-----------------------|---|--|
|  | category_id | SERIAL | Unique ID number automatically assigned to each film category as a Surrogate Key. Primary Key. Foreign Key for film category table. |  |
| | name | CHARACTER VARYING(25) | The name of the film category using up to 25 characters. | |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | linked relationship with film category table. | | | |

ix. language

language

| PK | Columns | Data Type | Description | FK |
|---|--|-----------------------|---|---|
|  | language_id | SERIAL | An ID assigned to each language and matched to each film in that language. Primary Key. Foreign Key for the film table. |  |
| | name | CHARACTER VARYING(20) | The name of each language using up to 20 characters. | |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | linked relationship with the film table. | | | |

x. Staff

staff

| PK | Columns | Data Type | Description | FK |
|---|------------|-----------------------|--|---|
|  | staff_id | SERIAL | Unique ID number automatically assigned to each staff member on the rental transaction as a Surrogate Key. Primary Key. Foreign Key for rental and payment tables. |  |
| | first_name | CHARACTER VARYING(45) | Staff member's first name. Up to 45 characters in length. | |
| | last_name | CHARACTER VARYING(45) | Staff member's last name. Up to 45 characters in length. | |
| | address_id | SMALLINT | Unique ID assigned to each staff member's address. Foreign Key for the address table. |  |
| | email | CHARACTER VARYING(50) | Staff member's email address. Up to 50 characters in length. | |
| | store_id | SMALLINT | Unique ID assigned to each store. Foreign Key for the store and customer table. |  |

| | | | | |
|--|--|-----------------------|--|--|
| | active | BOOLEAN | Record of whether the staff member is still currently a member of staff using True/ False. | |
| | username | CHARACTER VARYING(45) | Staff member's username in the company system. Up to 45 characters in length. | |
| | password | CHARACTER VARYING(45) | Staff member's password in company system. Up to 45 characters in length. | |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | picture | BYTEA | Picture of staff member | |
| | linked relationship with rental, payment, customer and store tables. | | | |

xi. store

store

| PK | Columns | Data Type | Description | FK |
|---|--|--------------|--|---|
|  | store_id | SERIAL | Unique ID automatically assigned to each store. Primary Key. Foreign Key for the inventory and staff tables. |  |
| | manager_staff_id | SMALLINT | A unique ID number assigned to each store manager. | |
| | address_id | SMALLINT | A unique ID assigned to each store address. Foreign Key for the address table. |  |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | linked relationship with the address, inventory, and staff tables. | | | |

xii. address

address

| PK | Columns | Data Type | Description | FK |
|---|---|-----------------------|--|---|
|  | address_id | SERIAL | Unique ID automatically assigned to each customer as a Surrogate Key. Primary Key. Foreign Key for customer, store, and staff tables |  |
| | address | CHARACTER VARYING(50) | Line 1 of the store's street address using up to 50 characters | |
| | address2 | CHARACTER VARYING(50) | 2nd line of the store's street address using up to 50 characters | |
| | disctrict | CHARACTER VARYING(20) | District of the city the store is located in using up to 20 characters. | |
| | city_id | SMALLINT | Unique ID number assigned to each city where a store is located. Foreign Key for city table. |  |
| | postal_code | CHARACTER VARYING(10) | Postal code for each store's address using up to 10 characters | |
| | phone | CHARACTER VARYING(20) | Phone number listing for the store up to 20 characters | |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | linked relationship with the customer, store, staff, and city tables. | | | |

xiii. city

city

| PK | Columns | Data Type | Description | FK |
|---|---|-----------------------|--|---|
|  | city_id | SERIAL | Unique ID number automatically generated for each city where a store is located. Primary Key. Foreign Key for address table. |  |
| | city | CHARACTER VARYING(50) | The name of the city the store is located in. Up to 50 characters can be used. | |
| | country_id | SMALLINT | Unique ID number generated for each country where a store is located. Foreign Key for the country table. |  |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | linked relationship with the address and country table. | | | |

xiv. country

country

| PK | Columns | Data Type | Description | FK |
|---|--|-----------------------|--|---|
|  | country_id | SERIAL | Unique ID number automatically generated for each country where a store is located. Primary Key. Foreign Key for the city table. |  |
| | country | CHARACTER VARYING(50) | The name of the county the store is located in. Up to 50 characters can be used. | |
| | last_update | TIMESTAMP(6) | Date and time of last update in six-digit format without timezone | |
| | linked relationship with the city table. | | | |
